Welcome!

to the

2026 National Amateur Retriever Club Championship

Congratulations to all the dogs and handlers who have earned a spot in this year's NARC. Your achievement reflects the dedication, skill, and teamwork that define the very best in our sport. On behalf of the National Amateur Retriever Club, it is our pleasure to welcome you to the Pacific Northwest.

We are proud to host this prestigious championship and grateful for the many hours of hard work that have brought it to life. A heartfelt thank you goes out to our volunteers—your commitment and generosity make this event possible.

We would also like to extend sincere appreciation to the landowners who have graciously opened their properties for this event. Their support is essential to the success of the NARC. Please take a moment to thank them when you can, and be mindful of all land use guidelines outlined in this book.

Our thanks also go to the clubs, judges, and sponsors whose efforts throughout the year help make this championship a reality. We are especially grateful to our primary sponsors, Purina and Avery, along with Kent and Garmin for their continued support. We also appreciate the warm hospitality and contributions from the community and its local businesses.

During your stay, we encourage you to explore the area and enjoy all it has to offer—from local dining to nearby attractions.

We're glad you're here. Best wishes to all competitors, and enjoy the week ahead.

Sincerely,

Mike Griffin
Chairman, 2026 National Amateur Retriever Club Championship

In Memoriam

Bertil Joseph Carlson

December 7, 1932–February 28, 2026

Born in Homestead, Wisconsin, Bertil "Bert" Carlson built a life defined by independence, entrepreneurship, and a deep love of the outdoors and dogs.

After attending Seattle Pacific College and beginning medical school at the University of Washington, he chose instead to follow his passion—leaving to purchase a dog kennel and begin a lifelong career in retrievers.

A respected figure in the dog world, Bert was instrumental in developing retriever field trials in the Pacific Northwest. His training grounds near Fall City, Washington became a cornerstone of the community for nearly 50 years, helping shape generations of top handlers and dogs. Many notable trainers began their careers with him, and his influence was felt nationwide. Bert competed across the U.S. and Canada, earning numerous AKC Field Champions and National Retriever finalists. He was also known for introducing Schipperkes as "truck dogs" in the retriever community.

An avid outdoorsman, Bert enjoyed hunting, fishing, and traveling to Sweden to stay connected to his heritage. He will be remembered for his conviction, independence, and lasting impact on the sport and those who knew him.

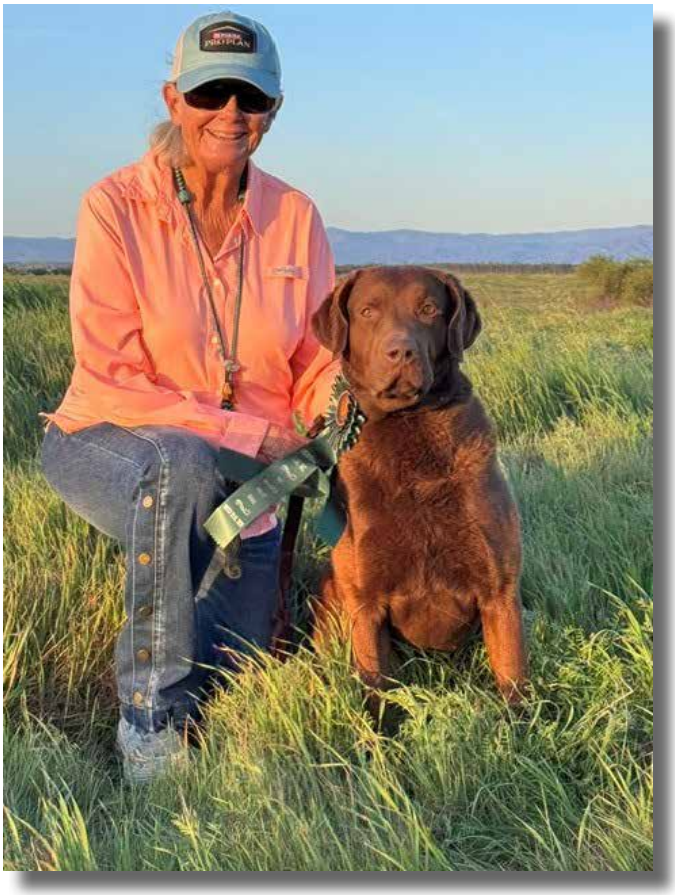
Field Trial Dedication



This field trial is proudly dedicated to Julie Cole who has served our sport, our dogs, and fellow "trialers" with dedication, compassion, hard work and integrity for over 45 years. Chesapeakes " brought her to the dance" and remain her heart breed. The American Chesapeake Club recognized her achievements by awarding her their Lifetime Achievement Award and the AKC Good Sportsman Award.

As a past judge of all three nationals (NRC, NARC, NDC) and NRC President and Chair or member of too many committees to list, she has given her time and knowledge freely to the benefit of the sport.

Julie is one of the most supportive members of the Northern California FT circuit.

Always willing to work in many different capacities to ensure well run and successful trials.

She chaired the ACC All Breed trial for more than 30 years and works every Nor Cal event.

Julie is always THERE!

Julie embodies the true definition of the all around field trial enthusiast, an intense competitor, a great sportswoman, and all while giving full support to her fellow competitors.

And under it all is her love for her dogs, Chesapeakes and Labradors alike.

Julie is thankful that she is able to give so much to the field trial game with the full support of her wonderful family.

Field Trial Dedication

This field trial is proudly dedicated to Chester and Charlie Koeth, whose enduring presence at the Nationals has spanned more than two decades. As competitors, committee chairs, and respected judges, their contributions have helped shape the very fabric of our sport.

Chester brought his expertise to the national stage as a judge of the NRC in 2010 and the NARC in 2021, while Charlie served as a judge for the NARC in 2017. Beyond these honors, their influence has been felt year after year through their unwavering commitment, earning the deep respect of the field trial community.

Beyond the national stage, their impact in Southern California has been nothing short of extraordinary. Through their leadership as club presidents, and their tireless work chairing, marshalling, and serving as secretary for multiple clubs, they have, in many ways, carried and sustained the local trial circuit.

Their dedication, generosity, and love for the sport have left a lasting mark on all who participate. It is with deep appreciation and respect that we dedicate this trial to Chester and Charlie Koeth.

OREGON

Danger! *A Guide to the Local Training Hazards*

Foxtails

They are very dangerous to your dog. Your dog can die from them if they get them in their nose and are not sneezed out or removed. These awns are barbed and can travel through dog from any entry point. They can cause an abscess if they penetrate the skin anywhere. Don't walk, air or train your dog in these!

Salmon

Salmon poisoning is a potentially fatal condition in dogs that eat raw salmon. June is salmon fishing season in Roseburg and surrounding areas. If your dog should eat raw salmon, get medical attention as soon as possible. Clinical signs appear within 6 days. They are: Vomiting, lack of appetite, fever, diarrhea, weakness, swollen lymph nodes, and dehydration. Untreated death usually occurs within 14 days. 90 percent of untreated dogs die.

Poison Oak

It's typically found in rocky or shallow soiled areas, shaded or sunny areas. It typically has vibrant red leaves in the early spring and late fall, but the leaves are a deep green all summer. The leaves are made up of three leaflets and this is the best way to identify it. As the saying goes, leaves of three, let them be.

Rattlesnakes

The Western Diamondback makes it home in California and Oregon. Generally not aggressive, rattlesnakes strike when threatened or deliberately provoked, but given room they will retreat. Startled rattlesnakes may not rattle before they strike defensively. Rattlesnakes can swim and may be around water areas. If you or your dog gets bitten, seek medical attention immediately as a bite from one of these guys can be potentially fatal. Be especially careful around rock outcropping, but they can be anywhere. When it gets hot, you may encounter them more in the morning and late evening and even at night when it cools off. Be careful wherever you train. Check out the area for all hazards, not just the ones above. Check for ditches, holes, buried implements or anything else

CREATE A LEGACY OF LOVE.
RETRIEVERS FOREVER FOUNDATION, INC.

Ensure retriever field trials will be around for generations to come with Retrievers Forever Foundation, Inc. (RFF). This non-profit, 501(c)(3) organization is dedicated to retrievers and the field trial sport by providing funding for:

- Improving existing club's training and trial grounds, infrastructure and equipment
- Acquiring new land for permanent training and trialing grounds
- Financing retriever health research
- Providing 501(c)(3) support for retriever clubs

A Guide to the Use of Training Properties

- **A draw for training property will be held daily from June 7 through June 11 at 6pm at Velkommen Square, corner of 1st and Ivy (Hwy 99) Junction City.**
- **The training grounds listed in this guide are recommended for groups of 10 or more dogs. If your in a smaller group please try to combine with another group so we can maximize our training properties.**
- **No group will draw for the same property two days in a row.**
- **After the trial starts training properties if still available will be a first come first-served basis.**

The following guidelines list important considerations for the use of the National Amateur trial grounds that are, thanks to the generosity of the owners, available for our use. These are in no way meant to cover every possible consideration. When in doubt, use common sense and courtesy. Remember, we are invited guests on these properties. The training property sites are open from 8 am to 5 pm.

1. The properties listed in this training guide are all private grounds developed by their owners for the training of their dogs. We are their guests and should act accordingly.
2. The use of these grounds shall be coordinated through the field trial committee and the random draws for property use.
3. No one may contact owners for individual or group use or access these properties except through the field trial committee.
4. The regulations listed for each property are in addition to these general guidelines.
5. Unless instructed otherwise close and secure all gates at all times.
6. Keep vehicles to the edges of fields and away from pond banks. Access fields only with UTVs or 4-wheelers.
7. Be wary of livestock and neighbors. Never shoot in the direction of any visible residence.
8. Unless otherwise noted, smoking on any property is prohibited, except in a closed vehicle.
9. Remove all of your trash, including spent shells, dead birds and any other trash you find. Do not leave food scraps or spilled dog food on the grounds. Some properties specifically prohibit feeding on the grounds.
10. Stay well-away from kennels and residences.
11. **Dead birds must be double bagged and disposed of in approved trash containers. Trash bins are available at Kirk Naisbitt property, 92709 Alvadore Road, Junction City and Sonya H-Jackson property, 27390 High Pass Road, Junction City.**
12. By entering any of these properties you acknowledge the risks inherent in outdoor sports whether such risks are apparent or hidden. All participants accept those risks and agree that they alone are responsible for the health and safety for themselves and others in their group. Participants, by their use of the properties, acknowledge that they hold the property owners, NARC, its officers and members harmless and free of any liability for any accidents, injuries or damage to their persons or vehicles. Entering any the properties is further subject to the participants' agreement to be held fully responsible for any damage, accidental or otherwise, to the property and any animals, facilities, buildings or equipment located on the property.
13. Enjoy these wonderful properties. But, please, be courteous to the landowners and their neighbors.

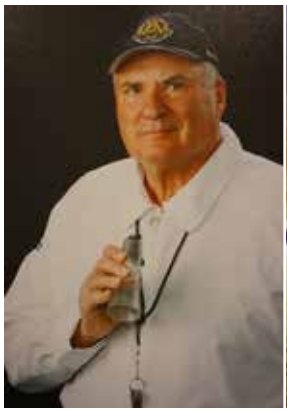
CHARLES MORGAN

AUGUST BELMONT



RON AINLEY

BING GRUNWALD

The Retriever Hall of Fame, part of the National Bird Dog Museum, is devoted to the preservation of the history and culture of all types of retriever sporting dogs. Within our walls, we honor and memorialize some of the most prestigious champion retrievers, as well as their owners, handlers, and trainers. We do this by collecting works of art and memorabilia, including trophies, decoys, calls, firearms, boats, clothing, and books.

To safeguard and showcase the history and art of our sport for future generations, the Retriever Hall of Fame needs your support.This support can take many forms:

- Donations of memorabilia pertaining to dogs, owners, handlers or trainers of all the retriever breeds.
- The contribution of historical records or information.
- Financial support for the improvement of the Retriever Hall of Fame's exhibits, to maintain the building it is housed in and to inspire the interest of future generations.

Make your tax deductible contribution today.
