For the purposes of this Judge's List, we have included Alaska in the Pacific Time Zone.

This is a US time zone map not considering daylight savings time or national club "region" geography.

This will give your club a general location for choosing future judging assignments.

Too Many Trials ... 2024 Not Enough Judges?

We are pleased to produce this list of active judges with point total ranges sorted by Time Zone. This is the 4th study of the AKC retriever field trial Judges pool, which started as a project several years ago to help Field Trial clubs select and pair judges for their events.

Readers will find the judges list demonstrates the most active judges measured by recent participation with three, two, one or no asterisks. Three asterisks (***) beside their name means they judged in the last year (2023). Two asterisks (**) means they judged between 2021 and 2022. One asterisk (*) means they judged between 2019-2020. Those with no asterisks have not judged in the last five years or more.

Judges are determined to be inactive if they have not judged in the past five years. The asterisk system explained above evaluates trends for those that have not judged recently, as we feel this is a possible indicator of more judges becoming inactive.

The data reveals a few interesting trends and numerous statistics about the judging pool and the judging workload in the retriever field trial community.

In 2013, there were 1,597 judges with an AKC Judge's Number, and by 2023, that number dropped to 1,292. More importantly, in 2013 there were 1,022 active judges in the prior five years while in 2023 we recorded 885 active judges working in the last five years. The following table summarizes this information.

	2013	2016	2019	2023
Judges with Numbers	1597	1504	1425	1292
5-Year Span Didn't Judge	575	515	485	407
5-Year Active Judges	1022	989	940	885

Using the vital statistics produced by the Retriever News, we see that 481 major stakes were offered in 2023, and 487 minor stakes. While the total number of events has decreased slightly over the last few years, *it still equates to approximately 2000 judging assignments annually!*

Year	Open	Amateur	Qualifying	Derby	Total
2005	213	213	233	233	892
2010	238	238	250	277	1083
2015	243	240	274	253	1010
2019	254	252	237	273	1016
2023	241	240	277	210	968

Here's the Problem!

Let's further evaluate our judging pool and compare it to the workload. It is commonly suggested that we limit ourselves to judging twice per year. With 885 active judges and 1936 judging assignments to fill each year, we're in trouble even if every single active judge were to accept two assignments next year.

An even bigger problem is that of the 885 judges that were considered active as of 2023, only 533 of them (60%) had more than 9 points, and 303 (34%) had more than 19 points. The pool of experienced judges is significantly smaller than the assignments we need to fill.

2019-2023		
Judges	% of Total	Total Points
6	0.06	100+ pts
21	2.4	70 to 99 pts
37	4.2	50 to 69 pts
239	27	20 to 49 pts
230	26	10 to 19 pts
352	39.8	1 to 9 pts
885	Total Active All-Age Judges	

Note that there are approximately 352 total judges with fewer than 10 points who may need to gain more experience and be mentored by a highly experienced judge while judging - this is 40% of the active judging pool!

Here is another consideration: If the most highly pointed judges can just cover the 481 major stakes annually, who will the newer judges learn from in the minor stakes? New judges learn the rigors of judging only by being paired with experienced judges. One does not learn to judge a field trial by training their dogs or watching professionals do it. Having relative newcomers training other newcomers in the minor stakes is not our best solution for educating judges – yet it's often the reality. And if all our upcoming judges are trained in this less-than-ideal situation, we can expect it to impact our major stakes.

Another way to evaluate the workload of judging assignments beyond earning any major points in the past three or five years is how many earned a point in a given year. Of the 885 active judges we identified, 507 of them earned one point or more in 2023. That means that 507 people covered the 481 major stakes.

The following tables show judges earning one or more major points sorted by region, looking back at one-, three- and five-year periods from 2023.

Judges Active During 2023					
Career Points	Central	Eastern	Mountain	Pacific	Total
1 to 9	79	59	15	27	180
10 to 19	50	35	16	24	125
20 to 49	68	41	22	26	157
50 to 69	13	7	4	4	28
70 to 99	4	7	1	3	15
100+	2	0	0	0	2

70 to 99	9	8	1	3	21
100+	5	0	0	0	5
Totals	385	268	95	137	885

In 2013, Retriever News published the following recommendations in hopes of improving our judging pool, and it is still relevant today:

1. **If you are an experienced judge, please consider offering to judge a minor stake to help educate our upcoming judges. This will ensure the newer judge has a good experience while also ensuring the quality of that minor stake.**
2. **If you are a newer judge, insist on judging with a recognized and experienced judge.**
3. **If you are on a Field Trial Committee – work hard to pair judges properly and try to support the concept of mentoring newer judges.**

Continuing education will be the key – the community needs to find a regular and active process for education of all of our judges.

The Retriever News understands that the subject of judging in the sport has always been a topic of conversation. Readers are invited to submit their thoughts or comments as a Letter to the Editor. Please send your assessments, concerns or ideas on judging to info@theretrievernews.com ■

Judges List – Alphabetically by Time Zone

Three asterisks (***) – "Judged Major Stake in 2023" — Two asterisks (**) – "Judged Major Stake between 2021 & 2022"
One asterisk (*) – "Judged Major Stake between 2019 & 2020" — No asterisk (Ø) – "Has not judged Major Stake in the past 5 years or longer"
